No.

Provides one on one support and group support depending on the needs of each individual regarding the proper tools and supports to lead a happy and fulfilling life.

Support Services department includes **Day Services** and **Behavior Support Services**.

Description Day Services focuses on increasing independence in all areas of daily living. Consumers engage in volunteer opportunities and community outings on a weekly basis.

Behavior Support Services use principles of Applied Behavior Analysis to support clients in their home and/or in the community. A Board-Certified Behavior Analyst develops and monitors an individualized behavior support plan for each consumer which aims to decrease problem behaviors and increase appropriate behaviors with the goal of encouraging independence.
